FROM ITALY, WITH LOVE!

Sundeck Yachts are ready to go anywhere

Born on the shores of the Italian coast from a builder who is a yachtsman himself, Sundeck Yachts are now available to discerning American clients.

Introduced in 2015, Sundeck Yachts is the dream of Angelo Casartelli.

With a vision that now includes seven models, Mr. Casartelli is ready to share his creations with the rest of the world.

Perfect for cruising the Mediterranean Sea, Biscayne Bay in Florida, the islands of the Bahamas, coastal New England or any ocean in between, a Sundeck Yacht can take you there in style, comfort and safety. Sundeck Yachts has taken the value of traditional boatbuilding to a luxurious yet contemporary level.

NOT YOUR
FATHER'S
TRAWLER

The flagship of the Sundeck Yachts fleet is the Sundeck 580. Operated by an owner or crew, the 580 provides ample social spaces and well-appointed accommodations.

Sundeck 580

The beamy hull at 16' 5" affords up to four lower staterooms in comfort and luxury. Owners can choose on layout options and décor packages preconstruction.

Her profile is hard charging with an axe bow to slice the seas, wide chines to knock down spray, stylized blackout hull side windows and a signature tubular radar arch.

An oversized flybridge deck extends all the way aft, covering the dining table and seats on the main deck. Traditional lines keep the 580's style timeless yet classy.

The Sundeck Yachts 580 is perfect for the cruising couple or active family. Defined as a fast cruising trawler, the 580's transitional hull will get up on plane with speeds up to 25 knots. Pull back the throttles for displacement

mode and an economical cruise at 8.5 knots, resulting in a range of over 900 nautical miles.

Choose to operate the 580 from the upper or lower helm stations, each offering full electronics and excellent visibility in all directions.

From either station, you remain close to your guests. Stability in a yacht is key. Not only is the hull designed for minimal roll, a Seakeeper 6 stabilizing gyro helps to almost eliminate side-to rolling motion, resulting in a more comfortable cruise.

Designed by the Sundeck Yachts design team, the Sundeck 580 has been finely tuned for maximum enjoyment with minimal effort.

SAFETY AT SEA

Inherently designed with safety at its core, the walk-around side deck gunwales measure 32" high, topped by welded grab rails that run the full side deck and bow areas. Walk-around access is exceptional thanks to wide decks and caprail mounted cleats.

The hull is solid fiberglass below the waterline, offering a strong defense against heavy seas. Slicing the head seas is a vertical axe bow, which reduces pitching, resulting in a more stable ride.

Electronic shift and throttle controls engage quickly, while the steering is responsive and the yacht easily maneuverable. Side gates make boarding easy when docked side-to. An aft gate offers access from the swim platform to the aft deck. A passerelle is recessed and extends aft to the dock.

Sundeck designed several outdoor places onboard to spend time with family. Enjoy some down time on the oversized bow sunpad. Well-padded with side grabrails, it's a perfect spot to take in the sights. Enjoy dinner al fresco style at the covered aft deck dining table.

Or gather friends for a barbecue on the flybridge deck thanks to the grill/summer galley station. Here, visibility is unrestricted and the good times immeasurable. Take your friends on a sunset cruise, venture up the river, or drop anchor in a favorite cove for a day on the water.

Cruise into the evening safely thanks to the ample on-deck lighting. Recessed fixtures in the side deck overhang and aft deck ceiling as well as deck level LED lights illuminate all exterior walk areas.

THE NEW “SOCIAL MEDIA”

Working well together, each social area on the 580 is an oasis unto itself. The spacious flybridge has a two-person helm seat at the starboard console. Additionally, there is a huge C-shaped settee suitable for six to eight persons comfortably with fold-out table. And this table converts to an additional sunpad.

Plush cushions in the settee add to the seating and lounging comfort.

Aft flybridge deck space is suitable for several lounge chairs or a davit to hoist water toys. The foredeck sunpad is generously sized for a large party, easily seating six or more guests comfortably. A four-person person bench seat with backrest is forward of the sunpad.

A GALLEY WITH A VIEW

Sundeck elegantly blends the indoors with the great outdoors. Aft bulkhead glass doors fully open to create a seamless transition on the main deck. An aft galley easily serves the aft deck as well as the salon dining area.

Well equipped, the galley includes fridge/freezer draws, microwave oven, recessed flat cooktop, and more in a low-profile layout, unobstructed line of site from stem to stern.

Large forward windshields and salon windows add to the open feel as does the high ceiling and custom furnishings.

Whether with family or friends, the salon can be utilized to your needs. A fold-out wood table is flanked by an L-shapes settee to port, suitable for game night or a plated meal.

Three portable ottomans can be used as seats or to put feet up. To starboard is a roomy sofa, and the salon is finished with teak flooring for elegance.

Owners can be very creative in the mid-ship, full beam master suite. Choose from rich dark woods or airy light woods for the cabinetry and walls, depending on taste. Included is a center-line pedestal king size berth, vertical hull-side windows with separate opening porthole, over 6' of headroom, pull-out mirrored vanity, drawers and closet storage. The private en-suite head includes a raised basin sink and electric toilet. An owner can choose smooth finished or tiled walls in the separate shower stall. Tropical chilled water air conditioning system keeps the master as well as the rest of the yacht environmentally comfortable.

Along with the master stateroom, there's a forward VIP with centerline pedestal queen berth and en-suite head and separate shower stall. Twin hanging lockers and drawers offer ample storage.

A guest stateroom features twin berths. If desiring an additional stateroom, customize the accommodations by splitting the master into two staterooms each with double berths. The lazarette can be configured for two crew or additional guests.

With a commanding profile, fuel efficient hull, Seakeeper stabilization gyro and CE-A Certification (up to 10 persons), you'll be comforted having your family and friends onboard this luxury fast trawler.

The philosophy at Sundeck Yachts is to join functionality, fuel efficiency and great seakeeping ability as a traditional yacht, yet capable of competing with other brands on those three features.

CONSTRUCTION OF DISTINCTION

Modern building techniques by traditional craftsmen

Skilled craftsmen with years of instilled experience still know the value of working with their hands. Crafting a Sundeck Yacht requires a special touch, to feel the precision, appreciate the finish and understand each component. They gain a sense of the finesse of each yacht. The strength of each hull is inherent in the controlled resin infusion and vacuum-bagging processes of each fiberglass component. Construction of each fiberglass mold is supported by a proven design carved on a 5-axis CNC (computer numerical control) milling machine, for precision cutting and sizing.

Solid fiberglass hulls and foam-cored infused stringers add rigidity to the forms. Foam-cored bulkheads and honey-combed backings help to reduce weight. With production facilities in Fano and Ravenna, Italy, Sundeck Yachts sources and crafts most components themselves, maintaining a high level of quality control throughout the build process. With the current facilities, Sundeck Yachts can be crafting up to 10 yachts simultaneously, at varying levels of completion. Launching and commissioning of each yacht is performed at each yard.

SUNDECK COLLECTION

The Sundeck Yachts fleet includes custom designed Open, Sport and Cruising yachts from 43 to 85 feet, as well as the 124-foot (38 meters) megayacht.
